Arts and Music Festival 2018

By: Grade 5-6 Students of San Antonio

On Friday January 26th, the Sterling West, South and East regions gathered together for our first ever National Arts and Music festival. The special day was divided into several parts. It was a mixture of local activities as well as regional and national. It was a celebration for all!

During the arts portion of the day, elementary and secondary art pieces were showcased over Zoom. All of Sterling and families got the opportunity to displays various paintings, photographs, models, sculptures, and drawings. It was amazing to see all the talent across all of our campuses!

The music portion was truly exciting. A band representative from each region started off by showing off their skills. We got to watch the West's performance at their fall Presentation Day, the South perform solos and group performances on their steel drums and the East's very professional looking music video. All three regions had been dedicating weeks to practicing two national choir songs – "Peace Song" and "Try Everything". Later, 26 campuses across five countries gathered to sing in harmony. All of the families and community member really enjoyed this performance.

In San Antonio, with the help of the Grade 10 Production Team, we hosted and filmed our First Annual 'Golden Knife' Cooking Competition during the local portion of the day. Based off the series Iron Chef, teams were revealed a secret ingredient that must be incorporated into 3 rounds...APPLES! We had to face different challenges such as photographing the plated dishes, incorporating mystery ingredients, and the judges even threw in sabotages such as wrapping our arms in plastic wrap to make things really tricky. It was an incredible way to show off our creativity through the art of cooking. Our families and community members watched and cheered us on all day. They even wished they could join us in the fun that we had!

South Region Geography Field Trip

The second regional Geography School Based Assessment took place from 5 to 7 February 2018. Last year it was Trinidad and Tobago; this year it was St Vincent and the Grenadines with students from all 4 Sterling South Campuses. With an abundance of physical features in St Vincent, the students took every opportunity to observe the wealth of relevant landforms alongside investigating their main focus of Tourism.

Bequia, the largest of the Grenadines, played host to us on the second day. The island values the importance of Tourism to its economy and provides quite an elite tourist product.

OneSchool NA Strategic Session

On April 25th, the North American Leadership Team along with the Educational Directors – Jonathon Borys, Lucas Bedell, and Heather Coulter, Curriculum Specialist – Charlie Huynh, and IT Director – Charles Young all converged in New Jersey to create a strategic plan for the upcoming school year. It was an excellent session filled with goal setting and action planning. Stay tuned for more details!
